

## Intermediate Landscape Architect – Saskatoon Studio

*Are you an energetic, driven professional looking to contribute to the healthy and sustainable evolution of Saskatchewan's communities and ecoregions? Are you looking to stretch your creativity on complex design challenges within dynamic project teams? Do you want to learn from experienced mentors while helping to build a team of skilled professionals in an office dedicated to growing future leaders? If this is you, we want to hear from you.*

HTFC practices across Canada's prairie, boreal and tundra regions. Since venturing into the Saskatchewan market with a studio in 2019, our work in this region has grown quickly. We are looking to deepen our roots by adding an intermediate landscape architect to our Saskatoon office, located in the lively Broadway neighbourhood.

### Why Join HTFC:

At HTFC you will join a collaborative team to plan and design urban spaces, waterfronts, public parks, cultural landscapes, landmark destinations, and vibrant mixed-use developments, continuing HTFC's 50+ year focus on sustainable, authentic, and place-specific design. To learn more about our work visit <https://htfc.ca/>

HTFC is an inclusive employer. We welcome professionals with diverse backgrounds and world views, and believe these varied perspectives make our work more meaningful and accessible. We are especially interested in applicants with connections to Saskatchewan's Indigenous and Métis communities.

HTFC offers a flexible work environment, an experienced team of professional mentors, a peer support system, and an excellent compensation package that includes a competitive salary, comprehensive health and wellness benefits, payment of applicable professional dues, and a professional development allowance.

### Who Should Apply:

Our ideal candidates will be creative, open-minded and intuitive, with a background that combines a passion for design with the communication and technical skills that bring ideas to life. We need people who are confident in design, construction documentation, and field services, equipped with the skills to build strong client relationships and produce high-quality projects. This position will have potential for strong career growth, helping to build, mentor and oversee a landscape architecture-based team.

Our technical requirements for the position are as follows:

- Five years experience, with two to three or more years working as a fully licenced landscape architect that leads and manages projects. A thorough knowledge of all project stages is essential.
- Exceptional and intuitive design aptitude with proven ability to generate creative ideas.
- Working knowledge of design, drafting, graphic and desktop publishing, modeling, rendering and writing software required to communicate design ideas through every stage of a project.
- Experience with business development, such as professional communications, proposal writing and client relationship building.
- Experience with mentorship of a team for a growing market.
- Valid drivers license.
- Eligibility for membership in the Saskatchewan Association of Landscape Architects (SALA), with current CSLA or an ASLA state chapter membership.

### HOW TO APPLY:

*To apply, please submit your cover letter, resume (complete with contact information), and a short portfolio of your relevant work (max 20 pages) to [saskemployment@htfc.ca](mailto:saskemployment@htfc.ca) with the subject heading of Intermediate Landscape Architect by May 31, 2026. Only candidates of interest will be contacted to discuss next steps. Thank you for your interest in HTFC!*
